

IDDx Diagnosis Terms (with synonyms/modifiers)

Round 1 Round 2 Round 3

Benign

Benign melanocytic proliferations

Nevus, Atypical, NOS / Nevus, Dysplastic /

Nevus, Clark

Modifiers: "Junctional;Compound;Dermal (intradermal)" **and** "Mild atypia (MPATH I);Moderate atypia (MPATH II);Severe atypia (MPATH III)"

Edits: Combined term

edited

~~Nevus, Clark~~

Modifiers: "Junctional;Compound" **and** "Mild atypia (MPATH I);Moderate atypia (MPATH II);Severe atypia (MPATH III)"

deleted

~~Nevus, Dysplastic~~

Synonym: Nevus with architectural disorder and cytological atypia

Modifiers: "Junctional;Compound" **and** "Mild atypia (MPATH I);Moderate atypia (MPATH II);Severe atypia (MPATH III)"

deleted

~~Nevus, Unna~~

Modifier: "Compound;Dermal (intradermal)"

deleted

~~Nevus, Miescher~~

Modifier: "Compound;Dermal (intradermal)"

deleted

Nevus, BAP-1 deficient

Synonyms: Wiesner nevus; BAPoma

Modifier: "Junctional;Compound;Dermal (intradermal)"

Edits: Edited synonym

edited

Blue nevus, Sclerosing

Synonym: Blue nevus, Fibrotic

added

Blue nevus, Plaque type

added

Nevus, Deep penetrating	edited		
Synonym: Seab nevus			
Edits: Renamed			
Dermal melanocytosis, NOS		added	

Flat melanotic pigmentations (not melanocytic nevus)

Ephelis	added		
Synonym: Freckle			

Benign epidermal proliferations

Seborrheic keratosis, Clonal	added		
------------------------------	-------	--	--

Benign adnexal epithelial proliferations - Follicular

Tricholemmoma, Desmoplastic	added		
Proliferating tricholemmal tumor	added		
Folliculosebaceous cystic hamartoma	added		
Proliferating tricholemmal tumor		added	

Benign adnexal epithelial proliferations - Sebaceous

Benign adnexal epithelial proliferations - Apocrine or Eccrine

Hidradenoma, NOS	added		
Mixed tumor, NOS	added		
Synonym: Chondroid syringioma, NOS			
Myoepithelioma			deleted

Hemorrhagic lesions (extravasation of erythrocytes)

Hemorrhage, Mucosal	added		
---------------------	-------	--	--

Benign soft tissue proliferations - Vascular

Glomangiomyoma	added		
Angioleiomyoma			deleted

Benign soft tissue proliferations - Fibro-histiocytic

Dermatofibroma, Atypical	added		
--------------------------	-------	--	--

Angiofibroma, Facial Synonyms: Fibrous papule;Perifollicular fibroma Edits: Edit synonyms		edited	
Benign soft tissue proliferations - Muscle tissue or myofibroblastic			
Nodular Fasciitis	added		
Benign soft tissue proliferations - Adipocytic			
Fibrolipoma	added		
Benign soft tissue proliferations - Neural			
Granular cell tumor, Non-neural	added		
Benign soft tissue proliferations - Cartilagenous and ossifying			
Benign soft tissue proliferations - Myoepithelial			
Mast cell proliferations			
Mastocytosis, Diffuse / multifocal (subtype: Telangiectasia macularis eruptiva perstans, Diffuse cutaneous, other; to be specified) Edits: Spelling			edited
Langerhans cell proliferations			
Cysts			
Infundibular / epidermal cyst Synonym: Sebaceous / keratinous cyst Edits: Edited synonyms		edited	
Inflammatory diseases			
Psoriasis	deleted		
Lichen planus	deleted		
Folliculitis	deleted		
Dermatitis, NOS	deleted		
Dermatitis, Atopic	deleted		

Dermatitis, Allergic contact	deleted	
Dermatitis, Irritant contact	deleted	
Dermatitis, Numular	deleted	
Dermatitis, Dyshidrotic	deleted	
Schamberg disease	deleted	
Purpura annularis telangiectasia	deleted	
Synonym: Majocchi disease		
Eczematoid purpura	deleted	
Synonym: Doucas-Kapenatakis disease		
Lichenoid purpura	deleted	
Synonym: Gougerot-Blum disease		
Lichen aureus	deleted	
Inflammatory disease, other (to be specified)	deleted	

Infectious diseases

Tinea corporis	deleted	
Pityriasis versicolor	deleted	
Verruca, NOS	deleted	
Verruca vulgaris	deleted	
Synonym: Common wart		
Verruca plantaris	deleted	
Synonym: Palmo-plantar wart		
Verruca plana	deleted	
Synonym: Flat wart		
Molluscum contagiosum	deleted	
Tungiasis	deleted	
Furuncular myiasis	deleted	
Scabies	deleted	
Larva migrans	deleted	
Infectious disease, other (to be specified)	deleted	

Exogenous

Tattoo	edited	
Edits: Renamed category		

Foreign body granuloma	edited		
Edits: Renamed category			
Exogenous, other (to be specified)	edited		
Edits: Renamed category			

Collision - Only benign proliferations

Benign - Other

Malignant

Malignant melanocytic proliferations (Melanoma)

Melanoma in situ, NOS <i>Modifier:</i> "pigmented;hypomelanotic/amelanotic" Edits: New modifiers	edited		
Melanoma in situ, Lentigo maligna type / melanoma in situ on chronically sun- exposed skin <i>Modifier:</i> "pigmented;hypomelanotic/amelanotic" Edits: New modifiers	edited		
Melanoma in situ, Acral / acral-lentiginous <i>Modifier:</i> "pigmented;hypomelanotic/amelanotic" Edits: New modifiers	edited		
Melanoma in situ, Mucosal (site to be specified: e.g. lip, oral mucosa, genital, other) <i>Modifier:</i> "pigmented;hypomelanotic/amelanotic" Edits: New modifiers	edited		
Melanoma in situ, Superficial spreading <i>Modifier:</i> "pigmented;hypomelanotic/amelanotic" Edits: New modifiers	edited		
Melanoma in situ, Pagetoid <i>Modifier:</i> "pigmented;hypomelanotic/amelanotic"	deleted		
Melanoma in situ, Recurrent / persistent <i>Modifier:</i> "pigmented;hypomelanotic/amelanotic" Edits: New modifiers	edited		
Melanoma in situ, associated with a nevus; require to specify nevus type (____)	added		

<i>Modifier:</i> "pigmented;hypomelanotic/amelanotic"			
Melanoma in situ, other (to be specified)			
<i>Modifier:</i> "pigmented;hypomelanotic/amelanotic"	edited		
Edits: New modifiers			
Melanoma Invasive, Associated with a nevus;			
require to specify nevus type (____)			
<i>Modifiers:</i> "Breslow depth __mm;Depth	added		
unknown;Melanoma transected at base, depth at			
least __mm" and "Ulcerated;Not ulcerated"			

Malignant epidermal proliferations

Pu va-associated keratosis			
<i>Modifier:</i> "Histopathologically		deleted	
pigmented;Histophathologically non-pigmented"			
Arsenical-associated keratosis			
<i>Modifier:</i> "Histopathologically		deleted	
pigmented;Histophathologically non-pigmented"			
Squamous cell carcinoma in situ, Solar keratotic			
type		deleted	
<i>Modifier:</i> "Histopathologically			
pigmented;Histophathologically non-pigmented"			
Digitated squamous cell carcinoma in situ			
<i>Modifier:</i> "Histopathologically	deleted		
pigmented;Histophathologically non-pigmented"			
Verrucous carcinoma, NOS			
<i>Modifier:</i> "Histopathologically	added		
pigmented;Histophathologically non-pigmented"			
Keratoacanthoma			
<i>Modifiers:</i> "Histopathologically	edited		
pigmented;Histophathologically non-pigmented"			
and "Not involuting; Involuting"			
Edits: Added modifier			
Squamous cell carcinoma, Invasive,			
Sarcomatoid			
<i>Modifier:</i> "Well differentiated;Moderately	added		
differentiated;Poorly differentiated;Differentiation			
not specified"			

Malignant adnexal epithelial proliferations - Follicular

Malignant adnexal epithelial proliferations - Sebaceous

Malignant adnexal epithelial proliferations - Apocrine or Eccrine

Malignant soft tissue proliferations - Vascular

Malignant soft tissue proliferations - Fibro-histiocytic

Malignant soft tissue proliferations - Muscle tissue or
myofibroblastic

Atypical intradermal smooth muscle tumor

added

Malignant soft tissue proliferations - Adipocytic

Malignant soft tissue proliferations - Neural

Malignant soft tissue proliferations - Cartilagenous and ossifying

Malignant soft tissue proliferations - Myoepithelial

Malignant soft tissue proliferations - Unknown or other
histiogenesis

Merkel cell proliferation

Lymphocytic proliferations - T-Cell/NK

Primary cutaneous CD4+ small/medium T-cell
lymphoproliferative disorder

added

Lymphocytic proliferations - B-Cell

Skin metastasis of internal solid (non-hematological) cancer

Collision - At least one malignant proliferation

Malignant - Other

Indeterminate

Indeterminate melanocytic proliferations

~~Pagetoid intradermepidermal melanocytic proliferation (PIMP)~~

Modifiers: "MPATH II;MPATH III" *and*

"Histopathological report favors nevus;Histopathological report favors melanoma in situ;Histopathological report undecided"

deleted

~~Atypical melanocytic neoplasm, Junctional~~

Modifiers: "MPATH II;MPATH III" *and*

"Histopathological report favors nevus;Histopathological report favors melanoma in situ;Histopathological report undecided"

Edits: Combined

deleted

Atypical pigmented spindle cell tumor

Synonym: Additional MODIFIER: Junctional / Compound

Modifiers: "MPATH III" *and* "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Edits: Combined, additional modifier

edited

~~Atypical pigmented spindle cell tumor, Compound~~

Modifiers: "MPATH III" *and* "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Edits: Combined

deleted

Atypical melanocytic neoplasm

Synonym: Additional MODIFIER: Junctional / Compound

Modifiers: "MPATH III;MPATH IV;MPATH V" *and* "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Edits: Combined, additional modifier

edited

Indeterminate epidermal proliferations

Solar (actinic) keratosis, NOS

edited

<p>Modifier: "Histopathologically pigmented;Histophathologically non-pigmented"</p> <p>Edits: Changed supercategory to Indeterminate</p>			
<p>Solar (actinic) keratosis, Hypertrophic</p> <p>Synonym: Hyperplastic solar keratosis</p> <p>Modifier: "Histopathologically pigmented;Histophathologically non-pigmented"</p> <p>Edits: Changed supercategory to Indeterminate</p>		edited	
<p>Solar (actinic) keratosis, Atrophic</p> <p>Modifier: "Histopathologically pigmented;Histophathologically non-pigmented"</p> <p>Edits: Changed supercategory to Indeterminate</p>		edited	
<p>Solar (actinic) keratosis, Acantholytic</p> <p>Modifier: "Histopathologically pigmented;Histophathologically non-pigmented"</p> <p>Edits: Changed supercategory to Indeterminate</p>		edited	
<p>Solar (actinic) keratosis, Bowenoid</p> <p>Modifier: "Histopathologically pigmented;Histophathologically non-pigmented"</p> <p>Edits: Changed supercategory to Indeterminate</p>		edited	
<p>Solar (actinic) keratosis, Lichenoid</p> <p>Modifier: "Histopathologically pigmented;Histophathologically non-pigmented"</p> <p>Edits: Changed supercategory to Indeterminate</p>	added		
<p>Solar (actinic) keratosis, other (to be specified)</p> <p>Modifier: "Histopathologically pigmented;Histophathologically non-pigmented"</p> <p>Edits: Changed supercategory to Indeterminate</p>		edited	
<p>Solar (actinic) cheilitis</p> <p>Synonym: Solar keratosis of lip</p> <p>Modifier: "Histopathologically pigmented;Histophathologically non-pigmented"</p> <p>Edits: Changed supercategory to Indeterminate</p>		edited
