

# ID Dx Delphi - Round III

Dear participant! Below, you will find the remaining ID Dx terms that, in round II, did not reach the required consensus threshold. For each of the items, we present the top two voted options from round II. Please choose one of these options.

\* Required

1. Email \*

---

2. Please enter your email address: \*

---

3. As well as your Session ID: \*

---

Benign - Melanocytic proliferations

4. Nevus, Atypical, NOS / Nevus, Clark / Nevus, Dysplastic: Diagnosis terms \*

*Mark only one oval.*

- ☐ Combine all three diagnoses to "Nevus, Atypical, NOS / Nevus, Dysplastic / Nevus, Clark"
- ☐ Combine as "Nevus, Atypical, NOS / Nevus, Dysplastic", Delete "Nevus, Clark"

## 5. Nevus, Unna: Diagnosis term \*

*Mark only one oval.*

- ☐ Reclassify "Nevus, Unna" as a modifier to the IDDX term "Nevus, NOS, Dermal (Intradermal)"
- ☐ Delete this IDDX term

## 6. Nevus, Miescher: Diagnosis term \*

*Mark only one oval.*

- ☐ Reclassify "Nevus, Miescher" as a modifier to the IDDX term "Nevus, NOS, Dermal (Intradermal)"
- ☐ Delete this IDDX term

### Benign - Cysts

## 7. Infundibular / epidermal cyst: Synonyms \*

*Mark only one oval.*

- ☐ Retain synonym as "Epidermoid-inclusion cyst"
- ☐ Delete synonym "Epidermoid-inclusion cyst"

### Malignant - Epidermal proliferations

## 8. Solar cheilitis: Diagnosis term \*

*Mark only one oval.*

- ☐ Change IDDX term to "Solar (actinic) cheilitis"
- ☐ Change IDDX term to "Solar (actinic) keratosis of lips / solar (actinic) cheilitis"

## 9. Squamous cell carcinoma in situ, Solar keratotic type: Diagnosis term \*

*Mark only one oval.*

- ☐ Change IDDX term to "Squamous cell carcinoma in situ, Solar (actinic) keratosis type"
- ☐ Delete this IDDX term

Uncertain - Melanocytic proliferations

## 10. Atypical intraepithelial melanocytic proliferation (AIMP): Diagnosis term \*

*Mark only one oval.*

- ☐ Retain this IDDX term ("Atypical intraepithelial melanocytic proliferation (AIMP)") as is
- ☐ Change term to "Atypical \*intraepidermal\* melanocytic proliferation (AIMP)" (\* = highlighted)

## 11. Atypical melanocytic neoplasm, Junctional: Diagnosis term \*

*Mark only one oval.*

- ☐ Combine this IDDX term with "Atypical melanocytic neoplasm, Compound", into "Atypical melanocytic neoplasm", with modifiers "Junctional / Compound"
- ☐ Delete this IDDX term

## 12. Atypical melanocytic neoplasm, Compound: Diagnosis term \*

*Mark only one oval.*

- ☐ Combine this IDDX term with "Atypical melanocytic neoplasm, Junctional", into "Atypical melanocytic neoplasm", with modifiers "Junctional / Compound"
- ☐ Delete this IDDX term

## Uncertain - Melanocytic proliferations II

## 13. Atypical pigmented spindle cell tumor, Junctional: Diagnosis term \*

*Mark only one oval.*

- ☐ Combine this IDDX term with "Atypical pigmented spindle cell tumor, Compound", into "Atypical pigmented spindle cell tumor", with modifiers "Junctional / Compound"
- ☐ Change to "Atypical pigmented spindle cell tumor, Junctional with uncertain malignant potential"

## 14. Atypical pigmented spindle cell tumor, Compound: Diagnosis term \*

*Mark only one oval.*

- ☐ Combine this IDDX term with "Atypical pigmented spindle cell tumor, Junctional", into "Atypical pigmented spindle cell tumor", with modifiers "Junctional / Compound"
- ☐ Change to "Atypical pigmented spindle cell tumor, Compound with uncertain malignant potential"

## Additional IDDX terms

## 15. Benign - Melanocytic proliferations \*

*Mark only one oval.*

- ☐ Add "Dermal melanocytosis, NOS" as a new IDDX term
- ☐ Do NOT add "Dermal melanocytosis, NOS" as a new IDDX term

## 16. Benign - Soft tissue proliferations - Fibro-histiocytic \*

*Mark only one oval.*

- ☐ Add "Perifollicular fibroma" as a new IDDX term
- ☐ Add "Perifollicular fibroma" as synonym for "Angiofibroma, Facial"

## 17. Benign - Cysts / Adnexal epithelial proliferations - Follicular (multiple choice) \*

*Mark only one oval.*

- ☐ Add "Proliferating tricholemmal tumor" in Category Benign - Adnexal epithelial proliferations - Follicular
- ☐ Add "Proliferating tricholemmal tumor" in Category Benign - Cysts

Additional  
global  
questions

During phase II, two additional questions arose that need to be answered so as to create an overall harmonious structure. For each question, please choose one of the available options.

## 18. Shall all "Solar keratosis" IDDX terms be placed in the "Uncertain" or "Malignant" super-category? \*

*Mark only one oval.*

- ☐ Place all "Solar keratosis" into the Uncertain super-category
- ☐ Place all "Solar keratosis" into the Malignant super-category

19. Shall the "Arsenical-keratoses" term be removed to be consistent (PUVA-keratoses was vote to be deleted)? \*

*Mark only one oval.*

- ☐ Remove "Arsenical-associated keratosis" term for consistency
- ☐ Retain "Arsenical-associated keratosis" term
