

# IDDx Diagnosis Terms (with synonyms/modifiers)

## Benign

---

### Benign melanocytic proliferations

---

Nevus, NOS, Junctional

Nevus, NOS, Compound

Nevus, NOS, Dermal (Intradermal)

Nevus, Atypical, NOS / Nevus, Dysplastic / Nevus, Clark

**Modifiers:** "Junctional;Compound;Dermal (intradermal)" **and** "Mild atypia (MPATH I);Moderate atypia (MPATH II);Severe atypia (MPATH III)"

Nevus, Lentiginous

**Modifiers:** "Junctional;Compound" **and** "Mild atypia (MPATH I);Moderate atypia (MPATH II);Severe atypia (MPATH III)"

Lentiginous melanocytic proliferation

**Modifiers:** "Junctional;Compound" **and** "Mild atypia (MPATH I);Moderate atypia (MPATH II);Severe atypia (MPATH III)"

Nevus, Spitz

**Synonym:** Spindle and epithelioid cell nevus

**Modifier:** "Junctional;Compound;Dermal (intradermal)"

Nevus, Reed

**Synonym:** Pigmented spindle cell nevus

**Modifier:** "Junctional;Compound"

Nevus, BAP-1 deficient

**Synonyms:** Wiesner nevus; BAPoma

**Modifier:** "Junctional;Compound;Dermal (intradermal)"

Nevus, Congenital (per history - present at birth or within 1 year of infancy)

**Modifiers:** "Junctional;Compound;Dermal (intradermal)" **and** "Superficial (Ackerman nevus);Superficial and deep (Zitelli nevus);Deep (Mark nevus)"

Nevus, Congenital pattern (per histopathology)

**Modifiers:** "Junctional;Compound;Dermal (intradermal)" **and** "Superficial (Ackerman nevus);Superficial and deep (Zitelli nevus);Deep (Mark nevus)"

Proliferative nodule in congenital melanocytic nevi (Minimal or no atypia AND no mitotic activity (MPATH II))

Nevus, Spilus

Nevus, Agminated

Blue nevus, NOS

Blue nevus, Common

**Synonym:** Tièche-Jadanssohn nevus

Blue nevus, Cellular

**Synonym:** Masson blue neuronevus

Blue nevus, Epithelioid

Blue nevus, Sclerosing

**Synonym:** Blue nevus, Fibrotic

Blue nevus, Plaque type

Nevus, Deep penetrating

**Synonym:** Seab nevus

Nevus, Combined (details of 2 components to be specified)

Nevus, Combined, NOS

Nevus, Acral

**Modifier:** "Junctional;Compound;Dermal (intradermal)"

Nevus, Of special anatomic site (e.g., genital, flexural, milkline and breast, other)

**Modifier:** "Junctional;Compound;Dermal (intradermal)"

Nevus, Recurrent / persistent

**Modifier:** "Junctional;Compound;Dermal (intradermal)"

Nevus, Halo

**Synonym:** Sutton nevus

**Modifier:** "Junctional;Compound;Dermal (intradermal)"

Nevus, Balloon cell

**Modifier:** "Junctional;Compound;Dermal (intradermal)"

Nevus, Meyerson

**Synonym:** Nevus with spongiotic inflammation

**Modifier:** "Junctional;Compound;Dermal (intradermal)"

Lentigo simplex

**Synonym:** Simple lentigo

Mongolian spot

Nevus of Ito

Nevus of Ota

Pigmented epithelioid melanocytoma

Dermal melanocytosis, NOS

Benign melanocytic proliferations, other (to be specified)

## Flat melanotic pigmentations (not melanocytic nevus)

---

Ink-spot lentigo

**Synonym:** Reticulated lentigo

Mucosal melanotic macule

**Synonym:** Mucosal lentigo

Café au lait macule / patch

Ephelis

**Synonym:** Freckle

## Benign epidermal proliferations

---

Solar lentigo

Seborrheic keratosis

Seborrheic keratosis, Clonal

Lichen planus like keratosis

**Synonym:** Lichenoid keratosis

Clear cell acanthoma

**Synonym:** Pale cell acanthoma

Large cell acanthoma

Porokeratosis

Epidermal nevus

Epidermolytic acanthoma

Acantholytic acanthoma

Melanoacanthoma

Benign epidermal proliferations, other (to be specified)

## Benign adnexal epithelial proliferations - Follicular

---

Trichoblastoma, NOS

Trichoepithelioma

**Synonym:** Trichoblastoma, Cribriform

Trichoepithelioma, Desmoplastic

Tricholemmoma

Tricholemmoma, Desmoplastic  
Proliferating tricholemmal tumor  
Folliculosebaceous cystic hamartoma  
Pilomatricoma  
Trichofolliculoma  
Proliferating tricholemmal tumor  
Pilar sheath acanthoma  
Nevus comedonicus  
Warty dyskeratoma  
Tumor of follicular infundibulum  
Panfolliculoma  
Benign adnexal epithelial proliferations, Follicular or Infundibular, other (to be specified)

## Benign adnexal epithelial proliferations - Sebaceous

---

Sebaceous hyperplasia  
Sebaceous adenoma  
Sebaceoma  
Nevus sebaceus  
Fordyce spots  
**Synonym:** Montgomery tubercles  
Fibrofolliculoma  
Trichodiscoma  
Benign adnexal epithelial proliferations, Sebaceous, other (to be specified)

## Benign adnexal epithelial proliferations - Apocrine or Eccrine

---

Syringoma  
Poroma  
Hidradenoma, Apocrine, NOS  
Hidradenoma, Apocrine, Predominantly with clear cells  
Hidradenoma, Poroid  
Hidradenoma papilliferum

Hidradenoma, NOS

Spiradenoma

Cylindroma

Mixed tumor, Apocrine type

**Synonym:** Chondroid syringioma, Apocrine type

Mixed tumor, Eccrine type

**Synonym:** Chondroid syringioma, Eccrine type

Mixed tumor, NOS

**Synonym:** Chondroid syringioma, NOS

Syringocystadenoma papilliferum

Apocrine tubular adenoma

Syringofibroadenoma

Supernumerary nipple

Fibroadenoma

Cystadenoma

Benign adnexal epithelial proliferations, Apocrine or Eccrine, other (to be specified)

## Hemorrhagic lesions (extravasation of erythrocytes)

---

Hemorrhage, NOS

Hemorrhage, Subcorneal and intracorneal

Hemorrhage, Dermal and subcutaneous

Hemorrhage, Subungual

Hemorrhage, Mucosal

Hemorrhage, other (to be specified)

## Benign soft tissue proliferations - Vascular

---

Hemangioma, NOS

Hemangioma, Cherry

**Synonym:** Cherry angioma

Hemangioma, Infantile

Noninvoluting congenital hemangioma (NICH)

Rapidly involuting congenital hemangioma (RICH)

Hemangioma, Hobnail

Hemangioma, Tufted

Glomeruloid hemangioma

Acquired elastotic hemangioma

Verrucous hemangioma

Hemangioma, other (to be specified)

Angiokeratoma

Pyogenic granuloma

Glomus tumor

Glomangiomyoma

Angiolymphoid hyperplasia with eosinophilia

Nevus anemicus

Capillary vascular malformation

**Synonyms:** Port wine stain;Nevus flammeus

Venous malformation

Arterio-venous malformation

Lymphangioma (superficial lymphatic malformation)

Other vascular or lymphatic malformation / hamartoma (to be specified)

Vascular spider

**Synonym:** Spider angioma

Venous lake

Telangiectasia

Acroangiokeratosis of Mibum

Benign soft tissue proliferations, Vascular, other (to be specified)

## Benign soft tissue proliferations - Fibro-histiocytic

---

Dermatofibroma, NOS

**Synonym:** Fibrous histiocyoma NOS

Dermatofibroma, Aneurysmal

Dermatofibroma, Hemosiderotic

Dermatofibroma, Epithelioid

Dermatofibroma, Cellular

Dermatofibroma, Atypical

Dermatofibroma, other (to be specified)

Non-Langerhans histiocytosis, NOS

Juvenile xanthogranuloma

Rosai-Dorfman disease

Reticulohistiocytosis

Non-Langerhans histiocytosis, other (to be specified)

Fibroepithelial polyp

**Synonyms:** Skin tag;Acrochordon

Angiofibroma, Facial

**Synonyms:** Fibrous papule;Perifollicular fibroma

Angiofibroma, Penile

**Synonym:** Pearly penile papule

Angiofibroma, Periungual

**Synonym:** Koenen tumor

Myxoma, Cutaneous

Fibroma, NOS

Fibroma, Sclerotic

Fibroma, Pleomorphic

Fibroma, other (to be specified)

Giant cell tumor of the tendon sheath

Scar, NOS

Scar, Hypertrophic

Scar, Keloid

Benign soft tissue proliferations, Fibro-histiocytic, other (to be specified)

## **Benign soft tissue proliferations - Muscle tissue or myofibroblastic**

---

Dermatomyofibroma

**Synonym:** Plaque-like dermal fibromatosis

Smooth muscle hamartoma

Piloleiomyoma

Angioleiomyoma

Dartoid muscle leiomyoma

**Synonym:** Nipple or external genital leiomyoma

Nodular Fasciitis

Benign soft tissue proliferations, Myofibroblastic or muscle tissue, other (to be specified)

## Benign soft tissue proliferations - Adipocytic

---

Lipoma, NOS

Lipoma, Spindle cell / pleomorphic

Angiolipoma

Fibrolipoma

Lipomatous nevus

Benign soft tissue proliferations, Adipocytic, other (to be specified)

## Benign soft tissue proliferations - Neural

---

Neuroma, NOS

Neuroma, Traumatic

Neuroma, Palisaded and encapsulated

Neurofibroma, NOS

Neurofibroma, Plexiform

Granular cell tumor

Granular cell tumor, Non-neural

Schwannoma

Nerve sheath myxoma

Perineurioma

Benign soft tissue proliferations, Neural, other (to be specified)

## Benign soft tissue proliferations - Cartilagenous and ossifying

---

Accessory tragus

Extraskelatal chondroma

Subungual osteochondroma

**Synonym:** Subungual exostosis

Osteoma cutis

Benign soft tissue proliferations, Cartilagenous and ossifying, other (to be

specified)

## Benign soft tissue proliferations - Myoepithelial

---

Myoepithelioma

## Mast cell proliferations

---

Mastocytosis, NOS

Mastocytoma, Solitary / unifocal

Maculopapular mastocytoma

**Synonym:** Urticaria pigmentosa

Mastocytosis, Diffuse / multifocal (subtype: Telangiectasia macularis eruptiva perstans, Diffuse cutaneous, other; to be specified)

Mast cell proliferation, other (to be specified)

## Langerhans cell proliferations

---

Langerhans cell histiocytosis, NOS

Langerhans cell histiocytosis, Solitary / unifocal

Langerhans cell histiocytosis, Diffuse / multifocal

Langerhans cell histiocytosis, other (to be specified)

Indeterminate cell histiocytosis, NOS

Erdheim Chester disease

Mixed Langerhans cell histiocytosis and Erdheim Chester disease

## Cysts

---

Cyst, NOS

Milium

Comedo

Infundibular / epidermal cyst

**Synonym:** Sebaceous / keratinous cyst

Trichilemmal / isthmic-catagen / pilar cyst

Dilated pore

**Synonym:** Dilated pore of Winer

Steatocystoma

Digital mucous cyst

**Synonym:** Ganglion / digital myxoid cyst

Benign cyst, other (to be specified)

## Exogenous

---

Tattoo

Foreign body granuloma

Exogenous, other (to be specified)

## Collision - Only benign proliferations

---

Collision, Only benign proliferations (to be specified)

## Benign - Other

---

Benign, other (or not readily classifiable; to be specified)

# Malignant

---

---

## Malignant melanocytic proliferations (Melanoma)

---

Melanoma in situ, NOS

**Modifier:** "pigmented;hypomelanotic/amelanotic"

Melanoma in situ, Lentigo maligna type / melanoma in situ on chronically sun-exposed skin

**Modifier:** "pigmented;hypomelanotic/amelanotic"

Melanoma in situ, Acral / acral-lentiginous

**Modifier:** "pigmented;hypomelanotic/amelanotic"

Melanoma in situ, Mucosal (site to be specified: e.g. lip, oral mucosa, genital, other)

**Modifier:** "pigmented;hypomelanotic/amelanotic"

Melanoma in situ, Superficial spreading

**Modifier:** "pigmented;hypomelanotic/amelanotic"

Melanoma in situ, Recurrent / persistent

**Modifier:** "pigmented;hypomelanotic/amelanotic"

Melanoma in situ, associated with a nevus; require to specify nevus type (\_\_\_\_)

**Modifier:** "pigmented;hypomelanotic/amelanotic"

Melanoma in situ, other (to be specified)

**Modifier:** "pigmented;hypomelanotic/amelanotic"

## Melanoma Invasive, NOS

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, Superficial spreading

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, On chronically sun-exposed skin / lentigo maligna melanoma

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, Acral / Acral-lentiginous

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, Nodular

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, Desmoplastic (indicate if associated with lentigo maligna)

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, Neurotropic

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, Nevoid

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, Spitzoid (melanoma resembling Spitz nevus / tumor)

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, Pigmented spindle cell nevus like (melanoma resembling Reed nevus)

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, Blue nevus-like (melanoma resembling or originating from a blue nevus)

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

## Melanoma Invasive, Recurrent / persistent

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at

least \_\_mm" **and** "Ulcerated;Not ulcerated"

Melanoma Invasive, Mucosal (site to be specified: e.g, lip, oral mucosa, genital, other)

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

Melanoma Invasive, Heavily pigmented (resembling epithelioid blue nevus or melanoma developing in animals)

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

Melanoma Invasive, Arising in a congenital nevus

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

Melanoma Invasive, Associated with a nevus; require to specify nevus type (\_\_\_\_)

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

Melanoma Invasive, other (to be specified)

**Modifiers:** "Breslow depth \_\_mm;Depth unknown;Melanoma transected at base, depth at least \_\_mm" **and** "Ulcerated;Not ulcerated"

Melanoma metastasis

**Modifier:** "Epidermotropic;Non-epidermotropic"

## Malignant epidermal proliferations

---

Squamous cell carcinoma in situ, NOS

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Squamous cell carcinoma in situ, Bowens disease

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Squamous cell carcinoma in situ, other (to be specified)

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Verrucous carcinoma, Oral florid papillomatosis type

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Verrucous carcinoma, Carcinoma cuniculatum type

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Verrucous carcinoma, Giant condyloma type

**Synonym:** Buschke-Lowestein tumor

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Verrucous carcinoma, NOS

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

#### Bowenoid papulosis

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

#### Keratoacanthoma

**Modifiers:** "Histopathologically pigmented;Histopathologically non-pigmented" **and** "Not involuting; Involuting"

#### Squamous cell carcinoma, Invasive, NOS

**Modifier:** "Well differentiated;Moderately differentiated;Poorly differentiated;Differentiation not specified"

#### Squamous cell carcinoma, Invasive, Keratoacanthoma-type (syn: SCC with Keratoacanthoma-features)

**Modifier:** "Well differentiated;Moderately differentiated;Poorly differentiated;Differentiation not specified"

#### Squamous cell carcinoma, Invasive, Acantholytic

**Modifier:** "Well differentiated;Moderately differentiated;Poorly differentiated;Differentiation not specified"

#### Squamous cell carcinoma, Invasive, Spindle cell

**Modifier:** "Well differentiated;Moderately differentiated;Poorly differentiated;Differentiation not specified"

#### Squamous cell carcinoma, Invasive, Verrucous

**Modifier:** "Well differentiated;Moderately differentiated;Poorly differentiated;Differentiation not specified"

#### Squamous cell carcinoma, Invasive, Adeno-squamous

**Modifier:** "Well differentiated;Moderately differentiated;Poorly differentiated;Differentiation not specified"

#### Squamous cell carcinoma, Invasive, Clear cell

**Modifier:** "Well differentiated;Moderately differentiated;Poorly differentiated;Differentiation not specified"

#### Squamous cell carcinoma, Invasive, Sarcomatoid

**Modifier:** "Well differentiated;Moderately differentiated;Poorly differentiated;Differentiation not specified"

#### Squamous cell carcinoma, Invasive, other (to be specified)

**Modifier:** "Well differentiated;Moderately differentiated;Poorly differentiated;Differentiation not specified"

## Malignant adnexal epithelial proliferations - Follicular

---

#### Basal cell carcinoma, NOS

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Basal cell carcinoma, Superficial

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Basal cell carcinoma, Nodular

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Basal cell carcinoma, Micronodular

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Basal cell carcinoma, Infiltrating

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Basal cell carcinoma, Sclerosing / morpheaform (morphoeic)

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Baso-squamous carcinoma

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Basal cell carcinoma with adnexal differentiation

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Basal cell carcinoma with sarcomatoid differentiation

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Basal cell carcinoma, Fibroepithelial

**Synonym:** Pinkus tumor

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Basal cell carcinoma, Combined subtypes (details of all components to be specified)

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Basal cell carcinoma, other (to be specified)

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Matrical / pilomatrical carcinoma

Proliferating trichilemmal carcinoma

**Synonym:** Proliferating isthmic-catagen carcinoma

Malignant adnexal epithelial proliferations, Follicular, other (to be specified)

## Malignant adnexal epithelial proliferations - Sebaceous

---

Sebaceous carcinoma

Malignant adnexal epithelial proliferations, Sebaceous, other (to be specified)

## Malignant adnexal epithelial proliferations - Apocrine or Eccrine

---

Paget disease, Mammary

Paget disease, Extra-mammary

Microcystic adnexal carcinoma

Apocrine carcinoma, NOS

Tubular carcinoma

Malignant mixed tumor

Porocarcinoma

Hidradenocarcinoma

Mucinous carcinoma

Digital papillary carcinoma

Adenoid cystic carcinoma

Adnexal adenocarcinoma arising in association with spiradenoma / cylindroma / spiradenocylindroma

Malignant adnexal epithelial proliferations, Apocrine or Eccrine, other (to be specified)

## **Malignant soft tissue proliferations - Vascular**

---

Kaposi sarcoma

Angiosarcoma cutaneous, Face and scalp of elderly patients

Angiosarcoma cutaneous, NOS

Angiosarcoma cutaneous, With associated lymphedema

Angiosarcoma cutaneous, Post-irradiation

Angiosarcoma cutaneous, Epithelioid

Malignant glomus tumor

**Synonym:** Glomangiosarcoma

Hemangioendothelioma, NOS

Hemangioendothelioma, Kaposiform

Hemangioendothelioma, other (to be specified)

Malignant soft tissue proliferations, Vascular, other (to be specified)

## **Malignant soft tissue proliferations - Fibro-histiocytic**

---

Atypical fibroxanthoma

Pleomorphic undifferentiated sarcoma

**Synonym:** Malignant fibrous histiocyoma

Dermatofibrosarcoma protuberans (DFSP)

Fibrosarcoma

Epithelioid sarcoma

Malignant Soft tissue proliferations, Fibro-histiocytic, other (to be specified)

## Malignant soft tissue proliferations - Muscle tissue or myofibroblastic

---

Leiomyosarcoma, Cutaneous

Rhabdomyosarcoma, Cutaneous

Atypical intradermal smooth muscle tumor

Malignant Soft tissue proliferations, Muscle tissue, other (to be specified)

## Malignant soft tissue proliferations - Adipocytic

---

Liposarcoma, Well differentiated

Liposarcoma, Undifferentiated

**Synonym:** Atypical lipomatous tumor

Malignant soft tissue proliferations, Adipocytic, other (to be specified)

## Malignant soft tissue proliferations - Neural

---

Malignant peripheral nerve sheath tumor

**Synonym:** Peripheral nerve sheath sarcoma

Malignant granular cell tumor

**Synonym:** Granular cell sarcoma

Malignant soft tissue proliferations, Neural, other (to be specified)

## Malignant soft tissue proliferations - Cartilagenous and ossifying

---

Extraskeletal osteosarcoma

Malignant soft tissue proliferations, Cartilagenous and ossifying, other (to be specified)

## Malignant soft tissue proliferations - Myoepithelial

---

Myoepithelial sarcoma

## Malignant soft tissue proliferations - Unknown or other histiogenesis

---

Ewing sarcoma, Primary cutaneous

Malignant soft tissue proliferations, Unknown or other histiogenesis, other (to be specified)

## Merkel cell proliferation

---

Merkel cell carcinoma

## Lymphocytic proliferations - T-Cell/NK

---

Mycosis fungoides, NOS

Mycosis fungoides, Folliculotropic

Mycosis fungoides, Pagetoid reticulosis

Mycosis fungoides, Granulomatous slack skin

Mycosis fungoides, With large cell transformation

Sezary syndrome

Adult T-cell leukemia / lymphoma

Primary cutaneous CD4+ small/medium T-cell lymphoproliferative disorder

Primary cutaneous CD30+ lymphoproliferative disease, NOS

Primary cutaneous CD30+ lymphoproliferative disease, Cutaneous anaplastic large cell lymphoma

Primary cutaneous CD30+ lymphoproliferative disease, Lymphomatoid papulosis

Subcutaneous panniculitis-like T-cell lymphoma

Extranodal NK/T-cell lymphoma, Nasal type

Chronic active EBV infection

Primary cutaneous peripheral T-cell lymphoma, Rare subtype, NOS

Primary cutaneous peripheral T-cell lymphoma, Rare subtype (to be specified)

Primary cutaneous peripheral T-cell lymphoma, NOS

Lymphocytic proliferation, T-Cell/NK, other (to be specified)

## Lymphocytic proliferations - B-Cell

---

Primary cutaneous marginal zone lymphoma

Primary cutaneous follicle center lymphoma

Primary cutaneous large B-Cell lymphoma

EBV1+ mucocutaneous ulcer (provisional)

Intravascular large B-cell lymphoma

Lymphocytic proliferation, B-Cell, other (to be specified)

## **Skin metastasis of internal solid (non-hematological) cancer**

---

Skin metastasis of internal solid (non-hematological) cancer (to be specified)

## **Collision - At least one malignant proliferation**

---

Collision, At least one malignant proliferation (to be specified)

## **Malignant - Other**

---

Malignant, other (or not readily classifiable; to be specified)

# **Indeterminate**

---

---

## **Indeterminate melanocytic proliferations**

---

Atypical intraepithelial melanocytic proliferation (AIMP)

**Modifiers:** "MPATH II;MPATH III" **and** "Histopathological report favors nevus;Histopathological report favors melanoma in situ;Histopathological report undecided"

Atypical Spitz tumor, Junctional

**Modifiers:** "MPATH III" **and** "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Atypical Spitz tumor, Compound

**Modifiers:** "MPATH III" **and** "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Atypical Spitz tumor, Dermal (intradermal)

**Modifiers:** "MPATH III" **and** "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Atypical pigmented spindle cell tumor

**Synonym:** Additional MODIFIER: Junctional / Compound

**Modifiers:** "MPATH III" **and** "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Atypical proliferative nodules in congenital melanocytic (Moderate or severe atypia OR mitotic activity)

**Modifiers:** "MPATH III" **and** "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Superficial atypical melanocytic proliferation of uncertain significance

(SAMPUS)

**Modifiers:** "MPATH II;MPATH III;MPATH IV" *and* "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Melanocytic tumor of uncertain malignant potential (MELTUMP)

**Modifiers:** "MPATH IV;MPATH V" *and* "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Atypical melanocytic neoplasm

**Synonym:** Additional MODIFIER: Junctional / Compound

**Modifiers:** "MPATH III;MPATH IV;MPATH V" *and* "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

Indeterminate melanocytic proliferation, other (to be specified)

**Modifiers:** "MPATH II;MPATH III;MPATH IV;;MPATH V" *and* "Histopathological report favors nevus;Histopathological report favors melanoma;Histopathological report undecided"

## Indeterminate epidermal proliferations

---

Solar (actinic) keratosis, NOS

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Solar (actinic) keratosis, Hypertrophic

**Synonym:** Hyperplastic solar keratosis

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Solar (actinic) keratosis, Atrophic

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Solar (actinic) keratosis, Acantholytic

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Solar (actinic) keratosis, Bowenoid

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Solar (actinic) keratosis, Lichenoid

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Solar (actinic) keratosis, other (to be specified)

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"

Solar (actinic) cheilitis

**Synonym:** Solar keratosis of lip

**Modifier:** "Histopathologically pigmented;Histopathologically non-pigmented"
